PRUNING DEMONSTRATION

At Okanagan Mission

Mr. B. Hoy, assistant provincial horticulturist, gave a valuable demonstration of pruning at Okanagan Mission last Thursday. He was expected at 9.30 a. m., but he was unable to reach there on time, and a large number of fruit-growers who had gathered in anticipation of the demonstration went home disappointed, after waiting a considerable time. However, through the efforts of Messrs. Sweny and Harvey, who made a thorough canvass of the district, every orchardist in the neighbourhood turned out in the afternoon to attend the first demonstration, which was given in Mr. J. H. Thompson's orchard, where Mr. Hoy pruned about twenty young trees of different varieties, illuminating the practical work with lucid explanations of his methods. He passed on to Mr. Sweny's orchard, known as the old Thomson orchard, in which he pruned older trees and discussed diseases that attack fruit trees and methods of treatment. The gathering was so interested in the work that it did not disperse till the dinner bell rang.

Before giving the demonstration, Mr. Hoy visited the old Mission orchard on account of rumours that San Jose scale had been found there. Examination failed to reveal any of the dread pest, and only some oyster shell bark louse was found, which in its turn had been attacked by a parasite.

During the afternoon, Mr. Hoy found some cases of the fungous disease known as "nectaria ditissima," or "apple and pear canker." It may be recognised by the presence of small red spots on wounds in the bark. The spots form the second stage of growth of the fungus, and distribute spores which affect any open or unpainted wound. The first stage of the fungus, the destructive one, lies in the cambium layer underneath apparently healthy bark, entirely surrounding the wound. For this reason, no spray is effective and the only remedy is radical cutting away of the portion surrounding the wound, painting the latter and burning the cuttings. The disease is a dangerous one, if neglected, as it may completely girdle the limb or trunk of the tree affected.

From that valuable compilation, Bulletin No. 24 of the Provincial Department of Agriculture, we extract the following in regard to apple canker.

"Old canker-eaten trees which are, commercially, absolutely useless, are frequently left quite neglected from year to year. These only serve as nurseries for the spread of this disease for miles around, as the minute spores of this fungus can easily be blown for long distances by the wind. One of the main reasons for this apparent apathy is that many fruit-growers look upon the canker as caused through some special physical condition of the soil, and not as the result of attack by a parasitic fungus. Thus they consider that preventive measures are

DREDGING OKANAGAN RIVER

Will Not Lower The Lake

The dredging of Okanagan River and improvement of navigation between Okanagan Lake and Lower Okanagan Lake (formerly Dog Lake) has been opposed by a number of people on the ground that it would permanently lower the level of Okanagan Lake and cause serious loss by wharves being rendered of little use at low water. Many people, on the other hand, have been urging the work in the hope of it accomplishing an ulterior object by lowering the lake and thus enabling low-lying lands near the shore to be reclaimed. However, if the Hon. Mr. Pugsley is correct in his statements, the fears of the one side and the hopes of the other will not materialise. In a copy of "Hansard" recently to hand, we note a report of an enquiry in the matter by Mr. Martin Burrell M.P. and Mr. Pugsley's reply, as subjoined.

Mr. BURRELL. Last year I mentioned to the Minister an item in the estimates of the previous year of \$10,000 for deepening the channel between Okanagan Lake and Dog Lake. The Minister replied: "Provision was made last year for improving the channel between Okanagan Lake and Dog Lake, but owing to the fact that Dog Lake is about 14 feet lower than Okanagan Lake, I, myself, after considering very carefully the report of the engineers, have very grave doubts as to the desirability of proceeding with the work. I am inclined to think that it will not be proceeded with at the present time and I will tell my hon. friend why. I am afraid that if the outlet of Okanagan lake is lowered so as to give a free run to the water the result will be to lower the level of Okanagan lake and that might necessitate dredging. . . . I am inclined to think that it might be better to delay proceeding with the work until a more careful study is made of the conditions. There is always the danger when you attempt to alter natural conditions with the idea of improving the navigation so as to give access to Dog lake that the result will be to materially injure the navigation of Okanagan lake which will be very much to be regretted."

I find in the report of the chief engineer for 1909, that \$2,492 was expended. The report proceeds:

"Some dredging in December done in Okanagan river about half a mile from where it leaves Okanagan lake was resumed March 1 to 14 the [redacted] was used as quarters for the crew of the "Heron" (dredge), the actual cost of which was about \$350. Dredging was then continued where left off at the end of December. Expenditure, \$4,621.79."

I understand that the engineer in charge expects to be able to deepen the channel in such a way as to be able to make navigation possible without lowering the level of Okanagan lake and I shall be glad if the minister would explain the present position there and what the government

propose to do, and are doing, because this work is regarded as of some importance in that country.

Mr. PUGSLEY. I made the statement to the House which the hon. gentleman has quoted. Last summer when I was in British Columbia I visited the locality in company with Mr. Aylmer, the assistant resident engineer, and in discussing the matter with him I found that his opinion was that instead of carrying out the plan which had been originally in contemplation of dredging the whole channel between the two lakes, it would be desirable only to restore the natural conditions as they were some 15 years ago when there was navigation between the two lakes, that is to dredge out for some distance south of the main Okanagan lake, and he was authorized to proceed with this work. I found that if it were done in that way it would not lower Okanagan lake, while we would get reasonably good accommodation between the two lakes, navigation suitable for light draft vessels and equal to the navigation of 15 years ago before it was obstructed by gravel from a stream tributary to the river connecting the two lakes so that it would be a quite desirable public work. With my authority, which was communicated to the department at Ottawa, the engineer was instructed to proceed with the work along those lines. It has not yet been completed, but I should think it ought to be completed very early in the coming season.

Mr. BURRELL. The minister expects to complete it with the previous vote?

Mr. PUGSLEY. It can come out of the general dredging vote. We have our own dredge.

Mr. BURRELL. Then there is a reasonable expectation that the navigation can be made fairly satisfactory without lowering the lake?

Mr. PUGSLEY. I believe so, yes.

changes of advertisements must be handed
to the printer by Tuesday noon, otherwise
they cannot be inserted in the current week's
issue.

THURSDAY, MARCH 24th, 1910.

The Money By-laws

Voting on the Power House Re-
construction By-Law and the Water-
works Extension By-Law will take
place on Wednesday next, and we un-
derstand that a movement is on foot
to defeat the former in order to get
even with certain members of this
year's Council who were responsible
for the defeat of the by-law for the
same purpose submitted last fall. To
our mind the defeat of that by-law
was a serious attack on the finan-
cial credit of Kelowna, and those who
engineered it were guided by a desire
to cast discredit on the Council of
1909 rather than by due considera-
tion for the best interests of the City.
Municipal patriotism is as commendable
an inspiration as national patri-
otism, and it should outweigh all per-
sonal considerations in dealing with
such matters. Two wrongs do not
make a right, and should any of those
who supported the by-law last year
turn against it this year in order to
punish those who destroyed it when
first submitted, they will be strik-
ing the same deadly blow at the fi-
nancial standing of the city that was
dealt last fall, and it will be much
to their discredit should they permit
their better judgment to be obscured
by the desire for revenge.

Whatever the nature of the bar-
gain made with the Canadian Fair-
banks Co., once made it should have
been kept, and defeat of the by-law
last fall was tantamount to repudia-
tion, as it left no means to obtain
the funds necessary to complete pay-
ment for the reconstructed plant, and
the Council of 1909 was forced to re-
sort to the undignified expedient of
spurring for time on the pretext of
waiting for the Boiler Inspector's re-
port. The balance due the Canadian
Fairbanks Co. is a legal obligation
and must be paid, if not by selling
debentures then by direct taxation,
and we can imagine how pleased op-
ponents of the by-law would be to
have 5 mills added to their tax
rate this year in order to pay for
their little amusement of defeating
it. It is to be hoped, then, that for
selfish reasons as well as for the re-
establishment of municipal credit
there will be a large turn-out of vot-
ers on Wednesday next, in order to
efface the memory of that 37-32
defeat last November.

As to the Waterworks Extension
By-Law there is room for honest dif-
ference of opinion. The municipal
water system has not yet been a
paying proposition, and it is hoped
that a system of extension
will be profitable. It is not proposed to spend
at once the \$10,000, for the borrow-
ing of which authority is being asked;
power is sought to raise as much mon-
ey as may be thought expedient
from time to time, with \$10,000 as
the limit. Ald. Leckie estimates that
\$6,000 will cover the most necessary
extensions, and should it be decided
to spend only that sum, no more de-
bentures would be floated this year.
Even those who are opposed to whole-
sale extension of the waterworks sys-
tem cannot object to such additions
as will put the plant on a paying
basis instead of the present one,
which represents a regular monthly
loss, and given the power to borrow,
the Council may be trusted to exer-
cise it wisely and not too well.

A. & T. ASSOCIATION

Directors' Meeting

An encouraging display of interest
was shown in the work of the Agri-
cultural & Trades Association by the
attendance, numbering twelve, at the
Directors' meeting held on Friday
evening.

The principal topic of discussion
was the revision of the prize list,
which will be carried out this year
by several committees and will be
thorough. It is proposed to increase
the amount of the prizes for popu-
lar varieties of fruit, valuable com-
mercially, in order to stimulate com-
petition in the kinds which will ul-
timately become the chief features
of fruit production of the district.
Other changes adding to the attrac-
tiveness of the prize list will also be
made.

The need of remodeling the build-
ings and adjacent grounds for show
purposes was also discussed. More
accommodation is needed, both in the
fair building and the grand stand at
the track. A committee was appoint-
ed to go into the matter and to re-
port at next meeting on March 30th.
Ex-Mayor Kearry, of New West-
minster, has offered the Association
first chance to have an exhibition
game of lacrosse played here between
the champion New Westminsters
and some first-class Eastern team.

The expenses of carrying out the
project are estimated at from \$1,500
to \$2,000, but enormous crowds of vi-
sitors would be attracted to Kelowna
by the game, and the exhibition and
horse races would profit accordingly.
Should it be possible to have the
match here, special trains would be
arranged to bring people from the
East and West, and special accommo-
dation would have to be provided for
feeding and housing them, should lo-
cal facilities prove insufficient. It
has been suggested that sleeping and
dining cars could be brought down
by car-barge to provide for excurs-
ionists who could not be accommodat-
ed in local hotels. A committee was
appointed to interview the City
Council and the Board of Trade, to
ascertain if any financial assistance
could be reckoned on by the Asso-
ciation towards the expenses of bring-
ing the lacrosse teams here, on ac-
count of the excellent opportunity of
advertising the resources of the val-
ley to the flood of visitors who would
pour in to see the game.

The fair will be held this year on
Sept. 19, 20 and 21, and even if the
lacrosse game does not materialize,
it is likely there will be a large num-
ber of visitors present, brought in by
the Provincial Convention of School
Trustees, which will meet here about
that time.

PROFIT FROM EGGS

James S. Dryden, writing in the
Oregon Agricultural Bulletin, relates
the results of some interesting ex-
periments made by him, covering sev-
eral years, in which every ounce of
food consumed by six pens of Leg-
horns was weighed. These six pens
of hens consumed during the year
564 pounds of wheat, 296 pounds of
corn, 203 pounds of oats, 112 pounds
of bran and shorts, and 235 pounds
of skim milk, in addition to some
animal food. The cost of the grain
food per fowl for the year varied
in different pens from 61 to 78
cents, and averaged 66 cents. The
wheat was charged at 10 a pound,
corn at 14c, oats at a cent, skim
milk at a fifth of a cent, and
bran and shorts at three-fifths of a
cent. The animal food cost from
5 to 6 cents per fowl. The wheat
constituted nearly a half of the total
cost.

The hens laid an average of 144
eggs per fowl, valued at \$1.65 at lo-
cal prices for eggs. The prices then
were from 10 cents to 25 cents per
dozen, much lower than the prices
are in Oregon at the present time.
If wheat had been charged at that
rate, and bran at 1c a pound, the
cost per fowl would have been 14c
more, or 80c instead of 66c. But
eggs are also higher in price than
they were then. On the basis of the
present prices for eggs, food costing
80 cents when fed to hens would
produce eggs worth \$2.58. This is a
pretty good margin of profit in feed-
ing 90c wheat.

It may be said that the average
flock of hens does not lay 144 eggs

LICENCE COMMISSIONERS

Refuse Transfer of Royal Hotel Licence

When the Board of Licence Commis-
sioners convened on Friday morning,
in the Court House, to pass upon the
application for transfer of the Royal
Hotel licence from Mr. J. E. Wheeler
to Messrs. Lavigne & Dunk, all the
Commissioners—Mayor Sutherland,
Dr. Boyce and Ald. J. W. Jones—were
present. Mr. R. B. Kerr, solicitor,
was in attendance on behalf of the
applicants.

After a statement from Mr. Kerr,
Mr. Lavigne was sent for and ex-
amined by the Mayor, in answer to
whose questions he said his firm had
taken a lease of the Royal Hotel for
two years from last fall from Mr. J.
W. Milligan. Mr. Wheeler had no
interest now in the hotel. When the
witness bought out Mr. Wheeler, he
had purchased the stock of liquors
and cigars, furniture, bar fixtures
and other equipment. All these
goods were paid for, and Mr. Wheel-
er had no interest in the hotel other
than the licence.

At the request of the Mayor, Mr.
Lavigne submitted the lease and
other papers connected with his ten-
ancy of the premises.

Mr. Kerr addressed the Commis-
sioners on behalf of the applicants
for the transfer. He said there was
no law in B. C. requiring the holder
of a licence to be interested in the
hotel concerned, and he cited such
examples as a joint stock
company, which sometimes
nominated a man to hold the licence
who had no interest in the business.
He traced the history of the occupa-
ncy of the Royal Hotel by Lavigne
& Dunk. They had first taken over
the hotel under a temporary trans-
fer granted by Mayor DeHart, which
was not confirmed by the Commis-
sioners, but they had not transferred
the business back to Mr. Wheeler, as
they hoped the new Board of Com-
missioners would grant the transfer.
There had been nothing secret about
their course of action, and the trans-
fer should now be granted to them.

Answering Dr. Boyce, Mr. Lavigne
said he had no written authority
from Mr. Wheeler to act for him,
only word-of-mouth.

Mr. Kerr held that verbal auth-
ority was quite sufficient and that
no document was required.

The Mayor asked all present to
leave the room while the Commis-
sioners deliberated on their decision.
After an interval of a few minutes,
the few in attendance at the proceed-
ings were admitted, and the Mayor
announced that the decision of the
Commissioners was that the trans-
fer be refused.

Mr. Kerr asked if any reasons
would be given, and was met with a
reply in the negative.

per fowl. That is true. It is also
true that 144 eggs per fowl is not
phenomenal. The right kind of hens,
properly attended, should produce
150, and well-bred hens considerably
more. The average farm flock will
not average 125, probably not 100.

In the above experiments all the
food eaten was paid for at market
prices, and the cost averaged only
66c per hen. The cost would have
been only 80c if the wheat had cost
90c per bushel. The farmer, how-
ever, who keeps fifty or one hundred
hens can do better than that, for on
the average farm that number of
hens can be kept largely on the
waste products or bye-products of the
farm. They will find the animal
products in the field, in the shape of
bugs, grasshoppers, worms, etc., and
there will usually be skim milk or
butter milk. There need, therefore,
be no cost for animal food, resulting
in a saving of 8 or 10 cents a fowl.
The clover or grass they eat will
have little marketable value. The de-
struction of grasshoppers in the clo-
ver and grainfields, and of bugs in the
orchards, will, where these insects
are bad, offset a large part of the
animal cost of food for the fowls in
better crops.

In the experiments with larger
breeds the cost of feeding was great-
er. The cost of feeding Plymouth
Rocks averaged \$1.15 per fowl, and
of Wyandottes \$1. This extra cost
is largely offset when the fowls are
marketed, the larger breeds bringing
more than the smaller breeds.

DEMONSTRATION ORCHARD

Will be Located in Kelowna District

Kelowna has been selected as one of the points for the location of one of the demonstration and experimental orchards planned by the Provincial government, while others will be inaugurated respectively at Vernon and Summerland. Three are also to be located in the Kootenays, two on Vancouver Island, two on the lower mainland, two in Kamloops riding, while the location of the others will be decided upon later, though the Upper Skeena country will likely have one of these orchards. Ten acres in each case will be utilized, typical soil and conditions being secured, and exact record of all expenditures and receipts being kept so that the commercial possibilities may be accurately determined. Local men are to be placed in charge in each case, under the supervision of officials of the department of Agriculture, and very special care will naturally be exercised in the selection of stock.

S. Middleton, assistant horticulturist, stationed at Nelson, states that the farms will not be for the purposes of experimentation but purely for demonstration of known facts. That is to say, each of the farms chosen for this purpose by the government will be operated by the government, the owner of the farm meeting the cost of the ordinary labour, and the government meeting the cost of all nursery stock used, and of all extra labour it is found necessary to employ. In practice the farm will be operated under the direction of the horticulturist in charge of the district.

At first, continues Mr. Middleton in an interview in the Nelson News, the farms will be devoted to the demonstration of horticulture alone, but in the course of time various other branches of agriculture may be taken up, as may seem desirable. The idea of the farms is principally the fostering of the fruit industry. Among the details that will be demonstrated on each farm will be such subjects as those of cover crops, inter-cropping, drainage, pruning, spraying, different methods of cultivating and irrigation. Farms will be selected which have a portion in old orchard and a portion in new, in order that there may be scope for demonstration of every phase of fruit culture. The idea is to have each farm in the centre of a large district in order that the ranchers of that part of the country may be within access of the demonstrations. Of course the ranchers may make their visits of inspection as often as they like, but periodical demonstration by experts will also be given. Each farm will thus be the focal point of the energies expended upon horticulture in its district. The owner will keep complete records of everything done, and the government will issue bulletins from time to time.

QUEEN'S OWN RIFLES

Semi-Centennial Re-Union

Several thousands of former members of the Queen's Own Rifles will assemble from all parts of the continent at Toronto next June, for a reunion in celebration of the Semi-Centennial of the regiment. The festivities will commence Saturday, June 18th, with a reception at Government House, His Honour, the Lieutenant-Governor, like many other notables, being an ex-member of the crack regiment. On Sunday a monster Church Parade of ex-members and the present members will be a unique affair. During the week, grand historical pageants on a scale only equalled at the Quebec Tercentenary, will be given by several thousand performers on the Rosedale Athletic Grounds. In addition, there will be numerous social meetings of old comrades.

In nearly every town and city in the Dominion, and in many in the United States and elsewhere, are men who have served in the Queen's Own, and the Semi-Centennial Committee is desirous of getting personally in touch with as many of them as possible. To that end, it will greatly facilitate matters if the ex-members who see this will at once communicate with the permanent secretary, Mr. G. I. Riddell, 36 King St. East, Toronto, and prevail upon all the other ex-members they know to do the same. Mr. Riddell will promptly send them particulars.

CITY OF KELOWNA

BY-LAW No. 72

A By-Law for raising the sum of Ten Thousand Dollars (\$10,000.00) to extend the works for supplying water and water power to the inhabitants of the City of Kelowna.

WHEREAS it has been found necessary to raise sufficient money to extend the works for supplying water and water power.

AND WHEREAS it is necessary for the said purpose to raise by way of loan upon the credit of the said city the sum of \$10,000.00, payable on the Fifteenth day of April, A.D. 1935, bearing interest in the meantime, payable half-yearly, at the rate of five (5) per cent per annum, the principal of such loan when raised to be applied for the purposes aforesaid.

AND WHEREAS, for the payment of the principal and interest it is necessary to raise the sum of \$740.11 in each and every year.

AND WHEREAS the whole rateable property of the City of Kelowna, according to the last revised assessment roll, is \$840,660.00.

AND WHEREAS the amount of the existing debenture debt of the said city is \$131,000.00.

NOW THEREFORE, the Mayor and Council of the City of Kelowna, in open meeting assembled, enact as follows:

1. It shall be lawful for the Mayor and Council of the City of Kelowna to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said city, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$10,000.00, and to cause all such sums so raised and received to be paid into the hands of the City Treasurer for the purpose and with the objects hereinbefore recited.

2. It shall be lawful for the said Mayor to cause any number of the said debentures to be made for the sum of \$1,000.00, bearing interest at the rate of five per cent per annum, not exceeding in the whole the sum of \$10,000.00, and all such debentures shall be sealed with the seal of the City of Kelowna, signed by the Mayor and countersigned by the Treasurer of the said city.

3. The said debentures shall bear date the 15th day of April, A.D. 1910, and shall be made payable in twenty-five years from the date hereinafter named for this By-Law to take effect, at the Bank of Montreal, in the City of Kelowna.

4. The said debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum, on the amount of the said debentures, and such interest shall be payable half yearly, on the 15th day of October, and April, in each and every year, and the signatures to such coupons may be either stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on the taxable property of the City, sufficient to pay interest on the debt hereby created during the currency of the said debentures, and to provide for the payment of such debt when due.

6. The sum of \$500.00 shall be raised and levied annually by a rate on all the rateable property in the City of Kelowna, in addition to all other rates, for the purpose of paying the interest on the said debentures.

7. The sum of \$240.11 shall be raised and levied annually by a rate on all the rateable property in the City of Kelowna, in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the City of Kelowna from time to time to repurchase any of the debentures at such price or prices as may be mutually agreed upon, and all such debentures so repurchased shall forthwith be cancelled and no re-issue of any such debenture or debentures shall be made in consequence of such repurchase.

9. This By-law shall, before the final passage thereof, receive the assent of the electors of the City of Kelowna in the manner provided for in the "Municipal Clauses Act, 1904," and amending Acts.

10. This By-law shall come into force and take effect on the 15th day of April, A.D. 1910.

11. This By-law may be cited for all purposes as the City of Kelowna Water Works Extension By-Law, 1910.

Read a first time by the Municipal Council this Twelfth day of March, 1910.

Read a second time by the Municipal Council this Twelfth day of March, 1910.

Read a third time by the Municipal Council this Fourteenth day of March, 1910.

Received the assent of the electors of the City of Kelowna this day of 1910.

Reconsidered and finally passed by the Municipal Council of the City of

The Merchants and Business Men of Kelowna have agreed to close their places of business

Every Thursday, at 12.30 p.m., from

APRIL 7th to OCTOBER 27th

Both Days Inclusive.

PROVIDED: That no weekly half-holiday shall be held in any week during which a statutory holiday shall be observed or a civic holiday proclaimed.

From Time Immemorial

A ring has been the token of love and friendship. They are ideal gifts for loved ones whether birthday, signet or engagement rings. I have them to suit individual tastes and the designs are artistic and the prices are extremely moderate as well. They make a pleasing gift that will last forever and mean something more than mere ornamentation.

If you are thinking of purchasing a ring of any description my prices will influence you enough to do business with me.

PATRONIZE Home Industry

Having had a large experience in the growing of tobacco leaf we have decided to open a factory at Kelowna for the manufacture of cigars to be made from the leaf grown in the District. There is a large and increasing demand for cigars made from Kelowna tobacco and it is our desire to fulfill this want and this we purpose doing by establishing an up-to-date factory, employing only skilled workmen. Lovers of the good who purchase our brands may rely on getting a cigar with taste, aroma and fragrance unexcelled in any cigar made. In purchasing our cigars customers will be assured a tobacco leaf of imported cheaper and inferior grades is not used.

PRUNING DEMONSTRATION

Continued from page 1

quite beyond their control, and they do not rank this affection as a contagious disease and one that by the employment of certain methods can be kept well in check.

"True apple canker is caused through the infection of the tree by a parasite fungus known as the canker fungus (necrotia ditissima). The spores of this fungus gain admission into the tissue of the tree through wounds which are always to be found on fruit trees. Hence the fungus belongs to that group of fungi which are often termed wound-parasites. Trees may have also what may be termed 'false canker,' where the effects resemble those of true canker, but in them the necrotia fungus is not to be found. The cause of this 'false canker' has been attributed to bacteria and researches by Byrneski seem to point to this conclusion.

"When young trees are attacked all affected branches should be carefully cut off below the point of infection and burnt. The exposed cut should then be protected with a coating of ordinary gas-tar. When thick branches are diseased the affected parts may be cut out and the cuts treated with tar.

"It is most important never to use scions from a tree that is or has been diseased; through the neglect of this precaution thousands of young stock have been ruined. When trees have been neglected and are badly diseased they should be cut down and burnt.

"Healthy and diseased trees should not be pruned with the same knife, as spores are often carried from tree to tree during pruning, and the newly-cut surfaces offer an admirable starting place for fresh infection. The tools should be sterilized after pruning an infected tree.

"Spraying is of very little use in destroying this disease; still, lime-and-sulphur mixture seems to lessen its ravages considerably. Proper cultural methods, and the keeping of the trees in a vigorous state, will generally prove successful in warding off this disease."

ORIGINAL POETRY

Be a Hero

Be a hero! It isn't easy when the world seems all awry;
When you find yourself benighted,
and no stars are in the sky.
When the things you must have longed for, all elude your outstretched hand.
When you realize the distance 'twixt you and love's promised land.
Be a hero in the battle when there's no one looking on,
When no voice is near to whisper to your wounded heart, "Well Done!"
Be a hero in the struggle that no human eye can see—
Hosts angelic watch your actions!
God expects your victory—
Be a hero in the small things of your care-filled daily life,
Fadless laurels wait to crown you at the end of all your strife.
Heroism isn't easy, but, proportionate to your pain,
When the conflict shall be over, is the sweet reward you'll gain.
—Hugh C. Jenkins.

Produce For Hospital

We are asked by the Secretary of the Hospital to state that donations of vegetables, fruit, dairy produce, eggs, etc., will be gratefully received at the Hospital. If more convenient any contributions may be left at the shop of the D. W. Crowley Co., Ltd.

"There are more Canadians to-day born in Canada residents of the United States than there are in Western Canada. Why did these men in the West go there instead of south of the line? It was because they were Canadians in spirit and wanted to remain in Canada." In these words Hon. Frank Oliver defended the Canadians in the Northwest before the Toronto Canadian Club. Mr. Oliver said he did it because he had heard it from the lips of public men and read it in the papers, that there was a great misconception down east as to the spirit of patriotism existing out west. Mr. Oliver said if easterners wanted to see what the real Canadian spirit was, they must look west of Lake Superior.

March Rod And Gun

Snow Trails, story of a professional man spending some weeks trapping with an Indian in the Canadian backwoods, is the leading feature of the March issue of Rod and Gun in Canada, published by W. J. Taylor, Woodstock, Ont., and one that no sportsman should miss. Stories galore have been written of experiences in the backwoods in summer and fall, but not too many genuine instances of personal experiences by outsiders in the woods in winter have been given to the world. Mr. Auer's narrative is full of interest and demonstrates the health and pleasure to be obtained from a visit to the winter woods. To penetrate too far is, as the author says, only for the strong, but there are few cases which would not be benefitted from following the author's advice and example. The time may come when winter visitors will rank only second in numbers to those enjoying summer outings. The difficulties of prospecting trips in Northern British Columbia are well brought out in the story of a Wild Goose Chase by Mr. F. Bullock-Webster. The experiences gained by fire ranging for two summers in the Metagami Forest Reserve are told in an interesting style, by Mr. H. W. Lyons. These are supplemented by a full list of contents, dealing with big game hunting, woodcock shooting, fishing, protective work, mountaineering and kindred subjects, the whole bringing with it the whiffs of the woodlands in very full measure and largely accounting for the widespread influence the magazine has gained amongst sportsmen on both sides of the border.

5000 Facts About Canada

The public will warmly welcome the new 1910 edition of that indispensable booklet, "5000 Facts About Canada," compiled by Frank Yeigh, whose writings and lectures on Canada are widely known. The popularity of the publication is shown by its sale of nearly 50,000 copies, not only in Canada but through the Empire, and indeed the world. The 1910 Edition contains a large percentage of new matter, under such heads as—agriculture, mining, banking, trade, railways, wheat-growing, education, religions, etc., while a new feature is a budget of Empire Facts. The book is a revelation of the riches and resources of the Dominion. It is published at 25 cents a copy by the Canadian Facts Publishing Co., 667 Spadina Avenue, Toronto, Canada, or may be had from newsdealers.

WATER NOTICE

Notice is hereby given that application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the Osoyoos Division of Yale District.

a.—The name, address and occupation of the applicant—Peter Archibald Sinclair, Farmer, Greenwood, Man.
b.—The name of the lake, stream or source (if unnamed, the description is)—Big Horn Creek, a branch of Bear Creek, Okanagan Lake.
c.—The point of diversion is—the source of Big Horn Creek.
d.—The quantity of water applied for (in cubic feet per second)—one foot and a half.
e.—The character of the proposed works—bed of creek, dam, ditch and flume.
f.—The premises on which the water is to be used (describe same)—Lot 3857, Group 1, Osoyoos Division of Yale District.
g.—The purposes for which the water is to be used—Irrigation and domestic.
h.—If for irrigation, describe the land intended to be irrigated, giving acreage—Lot 3857 aforesaid, consisting of 160 acres, all arable.
j.—Area of Crown land intended to be occupied by the proposed works, one mile by ten feet.
k.—This notice was posted on the 17th day of March, 1910, and application will be made to the Commissioner on the 26th day of April, 1910.

l.—Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—T. A. Wood, John M. Fraser, W. A. Donald, Oliver Hunter, James Simmons, James Carson, Jeremiah Vacher.

Miss Dillon, of Montreal, who had
been spending a visit of several weeks
with her niece, Mrs. G. F. B. James,
left yesterday for Rossland, where
she will visit a brother for a couple
of weeks before returning to her
home.

L. Holman & Co. are moving their
cigar factory this week from the
Raymer Block to the Morrison Block,
and are largely increasing their force
of cigar-makers. The brands manu-
factured are rapidly winning their
way into public favour, and the in-
crease in the staff is necessitated by
the orders coming in from various
parts of the Province.

Mr. Alf. McLellan arrived on Mon-
day to recuperate after a siege of
twelve weeks of typhoid fever, con-
tracted when he was working at Ok-
anagan Landing on the repairs to the
S.S. "Kelowna." The disease was at-
tributed to impure water, and was of
a very virulent type. Mr. McLellan
hovered between life and death for
five weeks in the Vernon Hospital,
and he ascribes his recovery to the
unrelenting care and attention of
the matron of that institution.

A meeting was held in the Fire Hall
on Tuesday night for the purpose of
organizing the Lacrosse Club for the
coming season. About twenty-five
were present, and the interest shown
indicates that Canada's national game
will have good support this year. The
following officers were elected: Hon.
Pres., Mayor Sutherland; Pres., L.
Holman; Vice-Presidents, J. Bowes, G.
McKenzie, D. Lloyd-Jones; sec-
reas., W. R. Parker; Capt., T. Mc-
Queen; Committee, W. Pettigrew, J.
Pettigrew, W. R. Parker, —, Bray. It
was decided to hold practices on Mon-
days, Wednesdays and Fridays, and
to ask the Council for permission to
use the Park.

The case of Peter Dahlberg, charged
with receiving stolen goods, was
called on Friday morning before Pol-
ice Magistrate Boyce. As the accus-
ed did not appear at the hour of 10
o'clock, as set, he was given until 11
to present himself, on the advice of
Mr. Kerr. At that hour City Const-
able Duggan went to the door of the
Court House and formally called Dahl-
berg's name three times, without re-
sponse. Dahlberg's cash bail of \$500
thus became forfeited to the Crown,
and the usual legal formalities took
place in regard to the forfeiture and
a new warrant was issued for his ar-
rest. Dahlberg was last seen at Sum-
merland on the previous Tuesday, and
is now supposed to be in American
territory.

Mr. Lamb left for Vancouver this
morning.

Dr. Gaddes left this morning on a
business trip to the Coast.

The Messrs. Bevan left this morn-
ing for their ranch at Haney, on the
Fraser River.

Mrs. T. A. Hardie was a passenger
this morning to Vancouver, where she
will reside in future.

Mr. Raisher Jones, of the Bank of
Montreal staff, left on Tuesday to
spend a holiday in Vancouver.

Mr. G. W. Fleming is sending his
son Charlie to Melville, Sask., to
start as machinist apprentice in the
shops of the G. T. P.

About twenty delegates, represent-
ing the various churches of the city,
went to Summerland yesterday to at-
tend the Sunday School Convention.

Mr. C. A. Gow arrived from Elk
Lake, Ont., on Thursday, to take over
the management of the local branch
of the Royal Bank from Mr. C. B.
Daniel, who has retired to engage in
business.

The annual meeting of the Kelow-
na Civilian Rifle Association will be
held in Lequime's Hall, on Saturday
afternoon, March 26th, at 3.30 p.m.
All members and intending members
are urgently requested to attend, as
urgent business must be transacted
in view of commencement of practice
for the season at an early date, so
that a team can be obtained to en-
ter the competitions of the Okanagan
Rifle Association at Armstrong this
year with some hope of bringing
home a trophy. Election of officers
will be held, and there is other im-
portant business to receive attention,
including the establishment of a
branch range on the K. L. O. Bench.

Thus saith the Kere-meos correspon-
dent of the Hedley Gazette: "Boreas
gave an exhibition of his strength
in February in blowing over the
smokestack of the steamer Okanagan.
In the towns on the lake this wind
is reported a gentle zephyr and a
chinook." This is the kind of insin-
uation that is supposed to promote
brotherly love and destroy sectional
feeling! The wind was no gentle
zephyr but it was a chinook, and a
howling one at that. If the Kere-
meosite is such a green cheechahko
that he does not know that the warm
chinooks are often the strongest
winds we have in the year, it is time
he took counsel of his elders and learned
more of the country and its cli-
matic characteristics before he un-
dertakes to make out his Okanagan
brethren to be a pack of liars.

The meeting of the Farmers' Insti-
tute on Tuesday afternoon was a dis-
mal failure. After waiting for an
hour and a half beyond the advertised
time, the entire audience consist-
ed of the president, the secretary,
the Mayor, who was scheduled to de-
liver an address on "Bees," the "Cour-
rier" representative and two real,
genuine spectators, drawn by a de-
sire for information. To while away
the time of waiting, Mayor Suther-
land informally conversed on his sub-
ject, and it was evident from the na-
ture of his remarks that the fruit-
growers and farmers of the valley
missed an excellent opportunity to
obtain information on a subject of
the most supreme importance as con-
cerning the success of the fruit in-
dustry. The meagre attendance can
only be accounted for by the fact that
spring work has commenced and the
farmers are all busy, but they should
not grudge three or four hours per
month spent at an Institute meeting,
considering that they may acquire
knowledge of infinitely greater value
than the time spent in obtaining it.

BUSINESS LOCALS

Dr. Mathison, dentist, telephone 89

For twenty-two years Campbell's
Varnish Stains have been used by
house-keepers everywhere for re-fin-
ishing Furniture, Floors and Wood-
work. Nothing else will give as good
satisfaction as the original. Insist up-
on getting "Campbell's." D. Leckie
carries a line of all colours.

The Eileen Maguire Concert

The Eileen Maguire concert in the
Opera House last night was well at-
tended, and the audience seemed fair-
ly well satisfied with the entertain-
ment provided, although not particu-
larly enthusiastic. Miss Maguire is
the possessor of a rich voice of wide
range and flexibility, with which she
would have completely captured the
sympathies of the audience had she
been more fortunate in her choice of
songs. Of the dozen or so rendered
the Irish songs, "Killarney," "Maure-
een" and "Tipperary" were easily the
best, with the exception of "Loch Lo-
mond" and "Coo," the last-named re-
ceiving a clamorous encore. The other
songs were of the ordinary inverte-
brate drawing-room type, and did not
give Miss Maguire's voice a proper
chance.

Mr. McRae gave some very good
interpretations of the "habitant" po-
ems of Dr. Drummond, and he was
seen to good advantage with Miss
Webbing in the amusing little sket-
ches, "An Anonymous Letter" and "At
the Ball."

Cowan-Naismith

On Wednesday last, March 17th, at
the residence of her step-father, Mr.
T. G. Speer, Miss Margaret Pearl
Naismith was united in marriage by
the Rev. S. J. Thompson to Mr. Alex-
ander McPherson Cowan. The cere-
mony took place at 4 p.m., and was
followed by a bridal banquet at 5.30
p.m. The bride was given away by
Mr. Speer, and was attended by Miss
Renwick as bridesmaid. Mr. Harvey
Naismith, brother of the bride, sup-
ported the bridegroom. Over 30
guests were present.

The happy couple have taken up
residence on Mr. Cowan's 13-acre lot
next the Cathar property.

Card of Thanks

Mrs. Lemon desires to thank all
friends for the kindness and sym-
pathy extended to her and her fam-
ily during her recent sad bereave-
ment.

Too Late For Classification

WANTED.—Paid correspondents and
subscription agents for the "Cour-
ier" at Westbank, Peachland, Okana-
gan Mission, Rutland, Benvenuto, K.L.
O. Bench and generally throughout
the district tributary to Kelowna. Lib-
eral terms. Apply by letter only to
Editor, Kelowna Courier.

WANTED.—Several wagon loads of
rich garden soil. Apply, G. C.
Rose, Courier Office.

OBITUARY

The Late Mr. J. F. Lemon

It is with deep regret that we have
to announce the death of Mr. Jacob
Franklin Lemon, which took place
on Sunday last at his residence, after
a long illness. He was of a quiet
and retiring disposition and took no
part in public affairs, but he made
many warm friends, who learned to
value the sincerity of his character.

Mr. Lemon was born in the Town
of Simcoe, Norfolk County, Ontario,
the only son of Isaac Lemon and Es-
ther Elizabeth Sherck, and at the time
of his death was not yet 48 years
of age. He went to Manitoba in
1882, settling in Brandon, where in
1884 he married Miss Elizabeth A.
Drew. He moved to Souris, Man., in
1887 and engaged in farming, which
he followed with success until failing
health caused him to leave for Ke-
lowna in 1901. He was given but a
few months to live when he left
Manitoba, but the
change of climate did him much
good, and for a few years it ap-
peared as though his ailment, tubercu-
losis, had been conquered. But it was
too deep-seated to be eradicated, and
during the past year he had been in-
creasingly failing health. He is sur-
vived by Mrs. Lemon and three sons.
The funeral was held on Monday,
services at the house and at the cem-
etery being conducted by the Rev. A.
W. K. Herdman, assisted by Rev. J.
Ball. There was a large attendance
of friends.

NEWS OF THE PROVINCE

The Bank of Montreal will erect a reinforced concrete building in Enderby this spring.

F. E. Tiley has been appointed municipal clerk of Penticton at a monthly salary of \$50.

The Armstrong Municipal Council has decided not to allow Chinamen to build any more additions to their buildings.

Kamloops Board of Trade is asking the City Council for \$2,500 towards its publicity campaign for this year.

The next show of the Northern Okanagan Poultry Association will be held at Enderby on December 21, 22 and 23, and will be entirely a score-card show, says the Press.

It is rumoured that there is likely to be a stronger baseball league this season than last, with Kelowna, Penticton, Peachland and the local team fighting it out for the honours.—Summerland Review.

The Great Northern Railway expects to reach Penticton this year from Oroville, Wash. This line will be about forty miles in length, and it is stated will be constructed within the present year as it is comparatively easy to build.

The Provincial government will spend \$7,000 in the repair of trunk roads passing through municipalities in the Kamloops and Okanagan ridings. J. P. Shaw, M.P.P. for Kamloops, will have the spending of the money.

On the train for Vernon, the other day, were some crates of cabbage which had been shipped by H. H. H. Chapin (of Armstrong) to a Vancouver firm, and by them re-shipped to Vernon—a 660 mile trip for nothing.—Advertiser.

The resignation of Mr. Reid, principal of the Penticton Public School, was accepted at the last meeting of the school board. The board also decided to discontinue the 2nd year high school work for the balance of the term, and all high school work at the end of this term.

A second inquest upon the bodies of the killed in the Rogers Pass fatality, on account of the first jury disagreeing, was held last week at Revelstoke. A verdict of accidental death, with a rider that the practice of working men at clearing snow slides on stormy nights, be discontinued, was brought in.

A deal has been closed whereby the Doukhobours secure 1200 acres more land in the Grand Forks district. The land secured is the Vaughan property, which consists of some of the best land in the valley. Although the purchase price was not given out, it is stated to have been in the neighbourhood of \$50,000.

"Lithographic liars" was the alliterative title bestowed upon really wildcaters by Ald. Hepburn, of Vancouver a few days ago, in condemning the fake real estate boomers of the Terminal City. A motion was unanimously passed by the city council, requesting the Attorney-General to take steps in the matter.

At the last meeting of the Vernon City Council, S. Somerville was appointed City Clerk, Treasurer and Collector, at a salary of \$120 a month. He will also have an assistant as book-keeper and stenographer. Messrs. Crehan & Mowat, Vancouver, were appointed auditors at \$200 per annum, they to furnish statements of the standing of the city's finances four times a year.

The new elections for mayor and council took place at Fernie on March 17th, when the citizens were at last successful in electing a municipal government for the current year. It will be recalled that in January the retiring mayor and aldermen refused to accept renomination on account of certain opposition, and when polling day arrived there were not sufficient candidates to constitute a council. Application was therefore made for a new election, which resulted in the return of last year's mayor and three of the councillors.

The plant of the Kootenay Jam Company, Nelson, will, when the proposed additions are made, have a capacity of five tons a day.

C. P. R. trains Nos. 1 and 2 will be resumed on the transcontinental run on May 1st, according to announcement made by officials in Winnipeg. These trains were discontinued on January 1st.

D. D. Mann, vice-president of the Canadian Northern Railway, is expected to come through to Victoria direct, from Toronto, to take in hand arrangements for the immediate inauguration of operations on both mainland and island sections of the C. N. R.

The funeral of the late John Houston, which took place at Nelson on March 15th, was the largest ever seen in the Kootenay. All stores and places of business were closed from 2 to 4 o'clock, and many flags were flying at half-mast. The Corporation will bear the expenses of the funeral.

The order has gone forth from the Public Works Department of the Provincial government that public works will be begun on April 1st. This will enable much more to be done in the season than formerly towards the completion of works projected.

Lying asleep in a heavy growth of ferns in a field while her father and mother were engaged nearby in burning rubbish on the land in preparation for the spring work, little Rosa Kosha, the four-year-old daughter of Martin Kosha, of Ruskin, B. C., was overtaken by the rapidly spreading flames and so badly burned that she died soon after.

Construction on the Kettle Valley line will start from Merritt early in May. The road will go from that place up the Coldwater river for 30 miles and will then divert southeast. It will be finished in less than three years. Construction gangs are starting from three points, Merritt, Penticton and Midway. The divisional point will be located at Merritt.

Work has been started on the construction of the waterworks system for Delta municipality. The water, which is of excellent quality, will be obtained from the foot of the Surrey Hills, and a reservoir will be built on the hills, the water to be pumped up. This will give a good pressure in all parts of the municipality. About 40 miles of mains will be laid, the work to cost over \$100,000.

The Nicola Valley Coal & Coke Co. is reported to have made arrangements to get connection with the new line which the Great Northern is building from Princeton into Vancouver. The new road will follow up the Otter Creek district as far as Dan McKay's ranch, thence going along the west fork of the creek as far as Dell King's ranch, where it will strike the headwaters of the Coquahalla.

The joint committee of the Armstrong Municipal Council, Board of Trade and Farmers' Institute have recommended the following expenditures in connection with advertising the Municipality of Spallumcheen, and for which purpose a mill on the dollar tax will be levied: That \$150 be spent in placing cards and advertisements in various journals and papers circulating throughout Eastern Canada, United States and Great Britain. That \$500 be spent in sending exhibits of fruit, during the season, to the various centres in Alberta, Saskatchewan and Manitoba, and \$750 in pamphlet advertising.

An amendment to the City of Enderby Waterworks By-law has been introduced into the Council, which if passed will place the waterworks system of that city on the same basis as it is found in all municipal-owned systems in the larger cities, and provides that the owner of the property shall be held responsible to the city for the water rate and not the tenant. The amendment provides that all water charges shall be levied against the property from the time the owner of the property applies to the City Clerk in writing for the water to be turned on until the owner applies to the Clerk in writing for it to be turned off.

NEWS OF THE DOMINION

Remarkable weather is being experienced on the Prairie, the thermometer last week ranging in the neighbourhood of 60, and was the subject of widespread comment. From all parts of the country reports of seeding are coming in, says a Regina despatch, and if present conditions continue seeding will possibly be fairly general by next week. This state of things, according to old-timers, has only once before been equalled during the last 25 years.

The Miller bill to prevent gambling is more drastic than at first thought and it contains some clauses which were not in the bill referred to the special committee. In the bill any man who records or registers any bet or wagers or sells any pools upon races, or any political or municipal election, or any race, or any contest or trial of skill or endurance of man or beast, becomes liable to a year's imprisonment or a fine of \$1,000. It would prohibit personal wagers between any group of individuals or any members of political or other clubs as to the result of an election or even of a parliamentary division.

A report issued in Ottawa by the minister of Finance, upon the position of the 30 chartered banks of the Dominion, on December 31st last, shows that the total authorized capital of the banks at that date amounted to \$140,467,000, of which \$97,809,000 was fully paid, the reserve funds totalling \$77,847,000. Total assets are given at \$1,157,784,000 and total liabilities at \$970,976,000. Among the assets, bills and cheques on other banks come to \$50,090,000, Canadian bills \$592,740,000, foreign bills \$40,070,000, government securities \$12,820,000, communal and municipal securities \$22,920,000, railway shares and bonds \$50,010,000, call loans \$204,610,000. Under liabilities, banknotes in circulation come to \$81,330,000, public credits \$32,790,000, non-interest bearing deposits in Canada \$261,270,000, savings deposits at 3 per cent. interest \$499,080,000, bank creditors, \$9,760,000. Of the 30 banks, one, the Sovereign, is in liquidation. Of the other 29 banks, one paid a dividend of 13 per cent., three 12 per cent., one 11 per cent., six 10 per cent., seven 8 per cent., four 7 per cent., two 6 per cent., three 5 per cent., and two 4 per cent. The largest amount of paid-up capital is shown by the Bank of Montreal, which has \$14,400,000; then comes the Canadian Bank of Commerce, with \$10,000,000; the Merchants Bank of Canada has \$6,000,000, while the other banks have capitals from \$5,000,000 to as low as \$200,000.

A mass meeting on the naval question was held last week in Vancouver, when it was resolved, that, as an emergency exists, an immediate contribution in Dreadnoughts or cash should be made to the Empire. The gathering was exceptionally enthusiastic, the hall itself wearing the decorative emblems of loyalty, while the speeches rang with the dominant note of a nascent and instinctive imperialism.

Creston is greatly stirred over the killing of deer wholesale out of season in that district, and a protective association has been formed. Many of the offenders are said to come from Port Hill, a small town seven miles from Creston on the other side of the international boundary line. It is reported that several of the worst offenders have openly boasted that they would continue to hunt deer on the Canadian side, and if any attempt was made to arrest them, "they would leave a trail of blood behind them."

John B. Barriek, one of the oldest merchants of Lytton, was murdered in his store early Thursday morning. The police are now on the track of a suspect. Barriek was 78 years of age and formerly conducted a store at Thompson. He was burned out eight years ago, when he went to Lytton and opened another business. The motive for killing is not known. The murderer entered the store and without warning shot the old man and made his escape. There is intense excitement in Lytton over the tragedy.

NEWS OF THE WORLD

A despatch from London, England, says that it is understood that the tariff reformers will propose a two shillings duty on foreign wheat, and that colonial wheat be admitted free.

Contracts for the Australasian Dreadnoughts have been placed with Clyde shipyards. The ships will have a guaranteed speed of 23 knots an hour.

Peary is reported to have cut short his tour of the southern United States. The refusal of Governor Brown of Georgia to introduce him to an Atlanta audience, his reference to Commander Peary as a fakir and the smallness of the crowds attending his lectures, is said to be the cause.

Representative business men and manufacturers of Great Britain, decided at a meeting held in London, to form an association to suppress methods adopted by foreigners to pass off their goods as British. The first step to be taken will be the adoption of the "All British" trade mark.

The year 1909 was a gloomy one from the point of view of labour, in Great Britain, according to the annual volume of labour statistics issued by the Board of Trade. The main facts to be gathered from the figures are that the year was one of high unemployment, decreasing wages and dear food. The total amount of unemployment in all trades during the year reached 7.7 per cent. In some trades the number of unemployed reached an exceptionally high level, as follows: Shipbuilding, 22.1 per cent.; Building, 11.7 per cent.; Engineering, 11.6 per cent.; Furnishing, 10.4 per cent.
